Preface

Bert Hellinger developed family constellations as applied today. His curious and creative mind never rests while he puts his results onto paper enthusiastically 12 hours per day. The quintessence of it is 83 books in more than 30 languages. Our archive also contains at least 3000 hours of video and audio recordings.

The New Spiritual Family Constellation is the result of 33 years of research. It has been observed and recognized around the world. Bert Hellinger realized that Family Constellations must be offered in their pure form as training based on national and international requests and feedback.

I. Introduction

When he started working with Family Constellation, Bert Hellinger thought that it was mainly a subject for therapists and doctors. Today, after thousands of constellations, he has acknowledged and is certain that Family Constellations require an all-new point of view and are not comparable to any previously applied method.

The New Spiritual Family Constellation according to Bert and Sophie Hellinger is not psychotherapy. It is a living aid going beyond all psychotherapy methods.

Bert Hellinger defines Family Constellations as the science of relations between all that exists and has discovered and accordingly described the "Orders of Love". Since then we have been able to recognize and convey the relationships between people in a different applied context. Bert Hellinger generally offers his experience and insights to all interested parties.

Hellinger sciencia® is the science of human relations and the Hellinger® *lebenSchule* conveys its insights in its training courses.

Family Constellations contribute to success and good results in all aspects of daily life. The applied Orders of Love can be considered laws of life that are valid for everyone. If we recognize and observe these laws of life, we will no longer continually require helpers. Instead, we will personally set the route towards insight, love, understanding and success.

The New Spiritual Family Constellations according to Bert and Sophie Hellinger lead to solution approaches on all levels, spiritual growth and strengthening of one's own personality. Who would be able to convey well-founded knowledge better than the founder himself whose purpose in life has become Family Constellation.

We at the Hellinger® *lebenSchule* offer Family Constellation from its very beginnings, i.e. from classic Family Constellation through its development all the way to the New Spiritual Family Constellations.

In New Spiritual Family Constellations we can see that the linear procedure mainly targeted at individuals in the sense of "the problem is here, the solution is there" no longer fits the scope of personal entanglement and networking. Entanglement turns out to be multi-dimensional and multi-layered. This means that it relates to many previous generations and possibly even previous lives.

For this reason, our training also leads into these spiritual levels that are beyond our previous ideas of "good" and "evil", "right" or "wrong".

We will gladly take you along in our seminars and show you ways of how to take your life into a new direction and become the master of your relationships, job and health using Bert and Sophie Hellingers' extraordinary insights and knowledge of.

Bert and Sophie Hellinger

heartedly welcome you!

II. General

The long time Bert Hellinger spent as a teacher in Africa and his extensive experiences there have shown that classification and sorting of students into different categories has not been successful as a model. Therefore, we have introduced the successfully proven "single-class system". Beginners and advanced students take part in the same classes for mutual benefit. This leads to a surprisingly quick increase of the knowledge, experience and consciousness levels of the entire group.

Our TRAINING FORMULA follows the recommendations of the European Union for continuing education:

- Interested persons may enter the training course at any time. They are not bound to the chronologic process of the seminars and may complete training at their own pace. We do not specify any date for the completion of the training course. Only the students decide on the progress of their training according to their inner development and skills.
- Students are not bound to a specific site. They may participate in any activity of the Hellinger® *lebenSchule* anywhere in the world. These participations will be recognized for their training upon submission of the corresponding confirmation participation.
- Our seminars are mainly held in the German language and translated on demand.
- Any of our seminars attended before the commencement of the training course will, of course, be recognized.

Prerequisites for entering the Training Course

- Personal maturity for this kind of work
- At least 5 years of professional experience
- Attended at least one of our seminars
- "Abitur" (high school degree in Germany) only required for the diploma studies at the Université Européenne Jean Monnet A.I.B.S.L. Brussels
- The Hellinger® *membership* is mandatory for Diploma courses A and B and needs to be paid yearly (€ 100 a year).
You will find all further details in Annex 7.

The profession of family and systemic constellation practitioner

At this time, the profession of family and systemic constellation practitioner is officially recognized in Belgium only. The section of professions that family constellations are part of is unclear to the authorities at this time.

<http://www.jeanmonnet.com/centreculturel.php>

Bert Hellinger believes that it is a perfectly new profession that does not even have a true name yet.

There are no specific requirements for family and systemic constellation practitioners at this time. No regulations have been passed on them that would be comparable to those of regulated professions like doctors, lawyers, architects or psychotherapists. The constellation practitioner, like the counselor, the NLP expert, the naturopath or art therapist is not yet a regulated but a free profession. This means that work as a family constellation practitioner is permitted while one does not violate the deontological code of other regulated professions.

We convey the required competences in our training course. In this way Hellinger® *lebenSchule* was recognized as a member of Université Européenne Jean Monnet A.I.S.B.L., because Bert Hellinger, the founder of the method, **warrants quality and a high educational level**. The UEJM-certified family and systemic constellation practitioner is equipped with everything needed to comply with the European requirements on the one hand and perform family and systemic constellations on the **highest level** on the other hand.

Where do we want to guide our students to?

The objective of our training course is to convey the required competences and equipment to enable the future practitioner to understand and apply the basis of Family Constellations. The content is mainly about learning, understanding and including the different types of consciousness, Orders of Love and basics of Family Constellations in all of their variations and apply them in practice. Regarding his inner attitude, the future constellation practitioner will learn about the four basic attitudes in the throughout the training course. They enable him to meet the client

without intention, without fear, without pity, without love.

This happens by passing on theory background and the insights of Bert and Sophie Hellinger in Special Seminars, Training Camps, personal experience in Practice Seminars, personal training in Exercise Seminars, guided meditation and exercises regarding attitude and perception.

This concrete training program aligned with the personal development of participations and practical work is accompanied, supported and deepened by mandatory reading, repeated studying of our media, personal exercises in self-organized seminars, single and group work and is completed by a diploma thesis on a subject selected by the participant.

What characterizes a good Family Constellator?

1. Personal maturity
The more experience one has in life, the larger the chances of being able to accept this training course and exercise the profession successfully.
Quote by Bert Hellinger: "What does he know, hasn't suffered?"
2. Inner clarity
Personal issues have been cleared up by cleansing, enabling the practitioner to look at anyone without anger and not coming up with anything mean when thinking of him or her.
3. Life experience
Life experience cannot be accelerated. It takes needs the time trough opening oneself, dedication and patience.
4. Ability to differentiate between feelings
Cleansing, agreement, lived and experienced reconciliation enable us to differentiate between the types of emotion that are behind the client's statements.
For example: If they are superficial ego-related feelings, accusations or involvements.

Liability Exclusion

Participation in the seminars of the Hellinger® *lebenSchule* will be at your own responsibility and own risk. It is not therapy and does not replace medical or psychiatric treatment.

- When signing up for the seminar, the participant declares that he/she is physically and psychologically able to participate in the seminar and knows that constellations which go deep into the soul may cause emotional and spiritual stress.

In a period of world turbulences and great changes it has become more important than ever to have the “right attitude” to be ready for the challenges of the current times.

Hellinger® membership means: each member is a part of a strong chain. Starting from Bert and Sophie Hellinger it connects the friends of Family Constellation with each other and conveys this extraordinary inner attitude to the world.

In the next “*Members meeting*” Bert and Sophie Hellinger answer all personal questions directly regarding the New Family Constellations in the clarity of their lifelong experience.

In the collective guided meditation you will be taken into a depth where you newly experience life and joy in their all-embracing integrity and more amazing things.

Main advantages of the Hellinger® membership:

- participation at the Hellinger® *Members meeting* in the whole world during the period of active membership
- our members are always informed by our newsletter about all latest developments
- collective meditations every week (in spiritual connection to all members in the world)
- personal member card for each member
